

Fairphone 2 Slim Case Replacement

This guide shows you how to replace the slim case of your FairPhone 2.

Written By: Tobias Isakeit

INTRODUCTION

Use this guide shows to replace the slim case of your FairPhone 2.

If you still have the bumper made in one piece you maybe want to use [this guide](#).

Step 1 — Slim Case

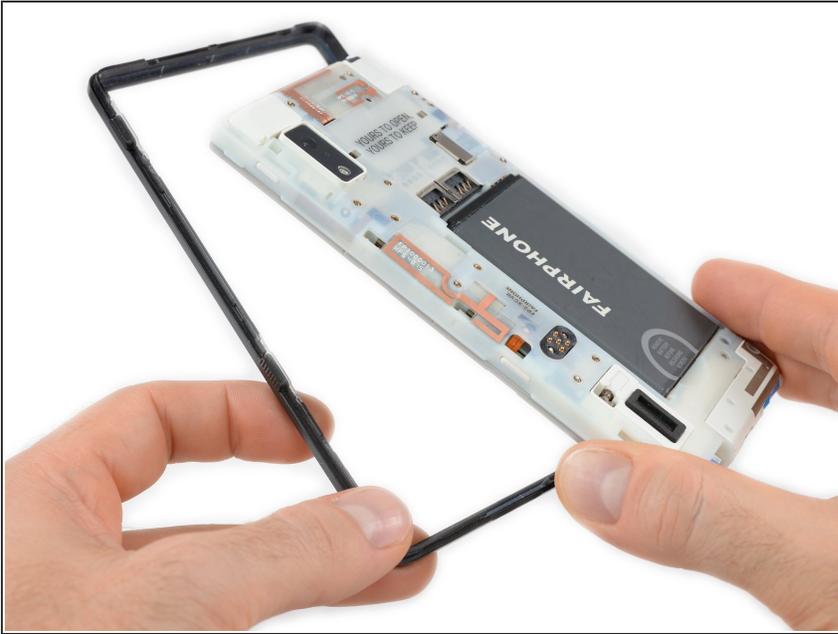

- Pick a corner of your slim case and get between the two parts with your thumb's fingernails.
- Pull up the back part of the slim case to separate the small snap fit connections.
- Remove the back part of the slim case.

Step 2

- Get in between the front part of the slim case and the phone's body with your thumb nail.
- Separate the snap fit connectors on the front part by pulling it to the side and pushing against the display.

Step 3

- Remove the front part of the slim case.

To reassemble your device, follow these instructions in reverse order.
