INTRODUCTION

Use this guide to replace your RAM Card. Replacing your RAM card for one of higher capacity will allow your system to perform better.

⚙ ## PARTS:

- PC3-10600 2 GB RAM Chip (1)

This document was generated on 2021-05-12 08:40:00 PM (MST).

Step 1 — Battery and Service Access Cover

- (i) Before beginning, make sure that your computer is turned off and all external power cords are disconnected.

- Close the laptop and turn it over so that the underside is up and the silver battery bay is facing towards you.

Step 2

- The battery locking latch is on the bottom right corner; slide it inward to unlock the battery.

- Slide the battery release latch inwards.

- Pull the battery towards you to remove it.

Step 3

- Slide the service access cover release lever to the right.

- While holding the lever to the right, lift up the laptop's bottom cover gently and remove the cover.

Step 4

- Orient the computer as shown in the picture.

Step 5 — RAM

- Using your fingers, pull the two white clips (tabs) on both sides of the RAM away from each other. Keep pulling the clips until the RAM pops up

⚠ Hold the RAM on the edges only. Touching the components on the RAM might damage it.

Step 6

- Grab the edges of the module and gently lift it from the slot.

ⓘ RAM Cards are designed with a notch on the surface to prevent incorrect insertion into the memory module slot.

To reassemble your device, follow these instructions in reverse order.
