

Hover-1 Superstar Bottom Case Replacement

This guide will show you how to take off the bottom case of the Hover-1 Superstar hoverboard.

Written By: Keegan

INTRODUCTION

In order to access the internal components of the Hover-1 Superstar, the bottom case must first be unscrewed and removed. This guide will explain the process of removing the bottom case from the Hover-1 Superstar.

TOOLS:

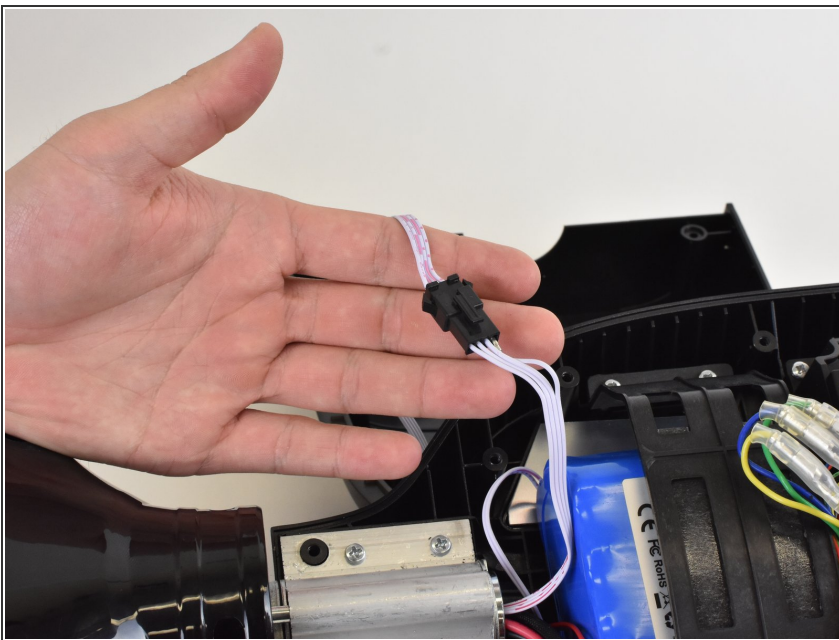

- [Phillips #1 Screwdriver](#) (1)
-

Step 1 — Bottom Case

- Flip your Hover-1 Superstar device upside down.
- Using a Phillips #1 screwdriver, remove all twenty of the 18mm screws holding the case onto the device.
- Remove the bottom case. Be careful of the connector holding the case and the device together.

Step 2

- Locate the cable connected to the front lights.
- Pull apart the wires until the black clip separates.

To reassemble your device, follow these instructions in reverse order.
