

iPhone Stuck on Apple Logo - Bootlooping

The iPhone won't turn on and stays stuck on the Apple logo, here is one solution.

Written By: Alexandre Isaac

 **TOOLS:**

- [P2 Pentalobe Screwdriver iPhone](#) (1)
- [Phillips #00 Screwdriver](#) (1)

 **PARTS:**

- [iPhone 4S Replacement Battery](#) (1)

Step 1 — Check for the symptoms

- iPhone doesn't prompt when unplugged
- The Apple Logo shows when plugged in. low charging current.
- Stuck on Apple Logo, then disappears, the comes back. Battery is probably failing.
- You try it !

Does your iphone work again ?
