

Toshiba Satellite C55D-C5106 Key Replacement

This guide will illustrate how to replace a key on the Toshiba Satellite C55D-C5106.

Written By: Laura Tamayo

INTRODUCTION

In the case you may need to replace a key on your Toshiba Satellite C55D-C5106 keyboard, this manual is meant to guide you along the process.

TOOLS:

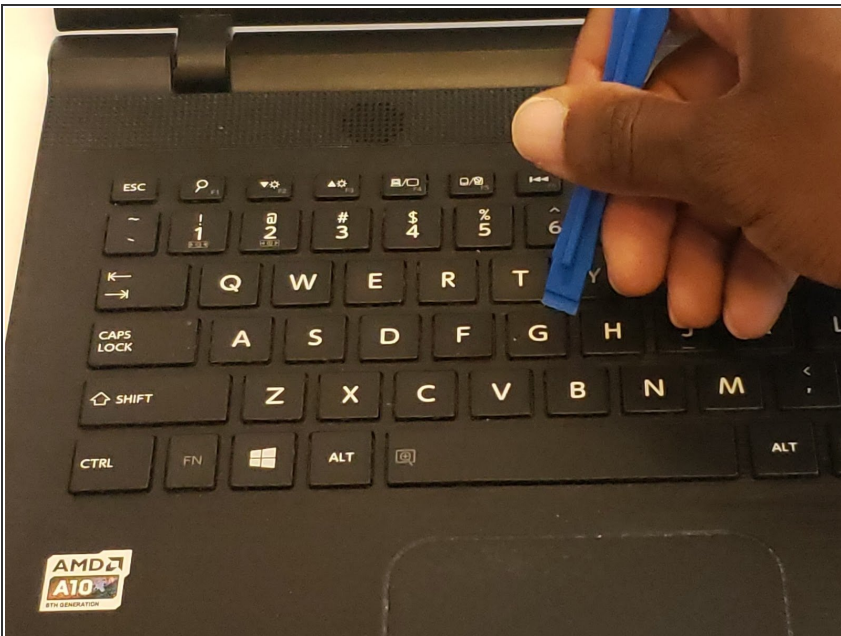

- [iFixit Opening Tools](#) (1)
-

Step 1 — Key

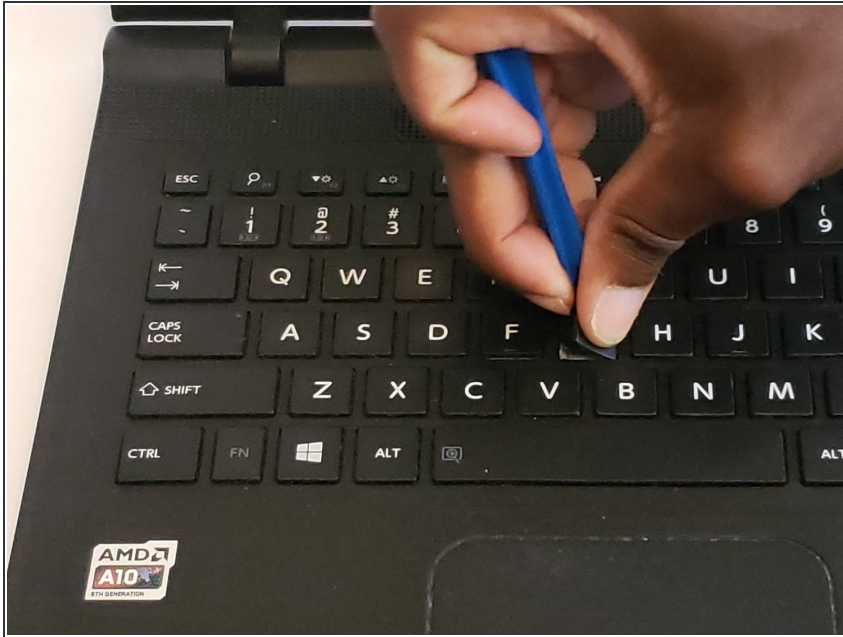

- Open the laptop, turn it off, and remove any external power sources before you remove any keys.
- Identify which key needs to be replaced and make sure you have an identical, functioning key on hand.

Step 2

- Wedge your iFixit opening tool underneath the non-functioning key.

Step 3

- Remove the key from the laptop.

To reassemble your device, follow these instructions in reverse order.
