Apple Lisa SCSI Card Installation

This guide demonstrates how to instal the Apple Lisa Sun Remarking SCSI Card.

Written By: LisaGuide

⚙ PARTS:

- Sun Remarketing SCSI Card (1)

www.iFixit.com

Step 1 — Disassembly

- Follow the [Apple Lisa Disassembly Guide](#) to remove the Lisa's real panel.
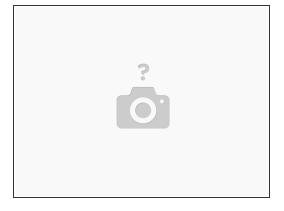

- Remove the Lisa's Card Cage.

Step 2 — Installing the SCSI Card

- Locate Lisa's expansion slots.

- Locate expansion slot 3.

- Pull the metal rod out from slot 3 and rotate 90º clockwise.

- Slide the SCSI Card into expansion slot 3.

- Rotate the metal rod, as described before, 90º counter-clockwise and push in to secure the Lisa DAC.

Step 3 — SCSI Upgrades

- The SCSI card includes 1 internal connector and 1 external connector.

- The internal connector is used for connecting a hard disk.

- If you intend to connect a hard disk then connect it now.

- Pin 1 is marked.

- The SCSI Card can also be cut to accommodate a Card Cage fan upon order request.

Step 4 — Reinstall Rear Panel

- Reinstall the Lisa's rear panel.

Step 5 — Using the SCSI Card

- The SCSI Card requires [MacWorks Plus II](#).

- To use devices connected to the SCSI card please refer to the device's manual for proper device installation.

- This SCSI card was installed to use an Apple External SCSI CD-ROM Drive.

To reassemble your device, follow these instructions in reverse order.
