INTRODUCTION

This is a prerequisite guide! This guide is part of an another procedure and is not meant to be used alone.

Disconnects the battery for the Moto X4.

TOOLS:

• Spudger (1)

This document was generated on 2020-11-28 07:56:22 AM (MST).

Step 1 — Disconnect the battery

- Insert the point of a spudger underneath the top edge of the battery connector.
 A Be careful not to dislodge the small surface-mounted components surrounding the socket.
- Gently pry up the connector to disconnect the battery.

Step 2

To re-connect the battery, align the connector on top of the socket, and press it down with your finger or a spudger.

To reassemble your device, follow these instructions in reverse order.
