

# How to charge your iPod classic on a PC or Laptop

Written By: Tokusan Guide

## INTRODUCTION

This is a tutorial if your original USB Charger are not working. You can charge your iPod from your PC.

## Step 1 — Connect your iPod into your PC

- Just connect your iPod into your pc. If you using a mac, Go to disk utility, then eject it.
- ⓘ If the iPod is not eject, try to click on the Eject sign. It may should work.

## Step 2

- Leave your iPod classic connected into your pc until it charged.

You can let you laptop or MacBook on the usb to charge to 2 hours. If it dosen't work, see the instruction manual for more information.
