

Samsung RS25J500DSR LED Light Replacement

Use this guide to replace the LED in your Samsung RS25J500DSR 36" Stainless Side By Side Refrigerator #48747 HRT.

Written By: Kimberlyne Barrios

INTRODUCTION

If your LED light strip on a Samsung Side By Side Refrigerator (model: RS25J500DSR) is not working, this guide will help you and lead you through your troubles. The LED light strip is an electric light for use in light fixtures. Inspect the connection connected to the LED light. Before starting, make sure to disconnect the refrigerator from the electrical outlet box. This guide provides easy and straightforward steps in changing the light on the fridge.

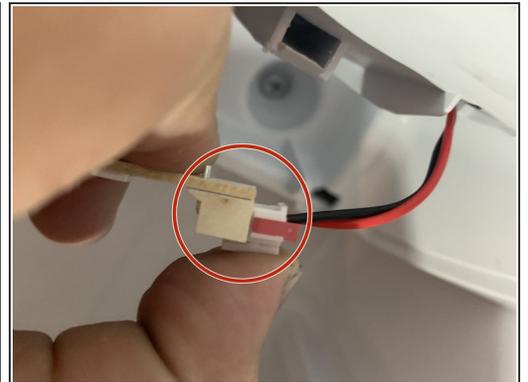

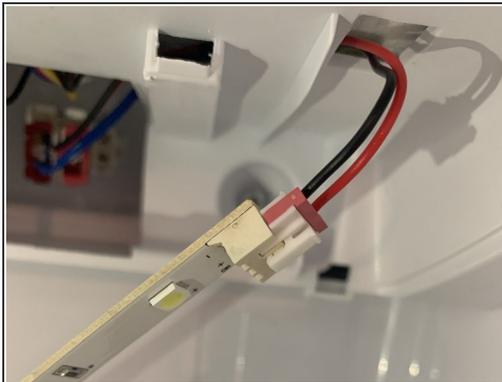

Step 1 — LED light

 Disconnect the refrigerator for the electrical outlet box.

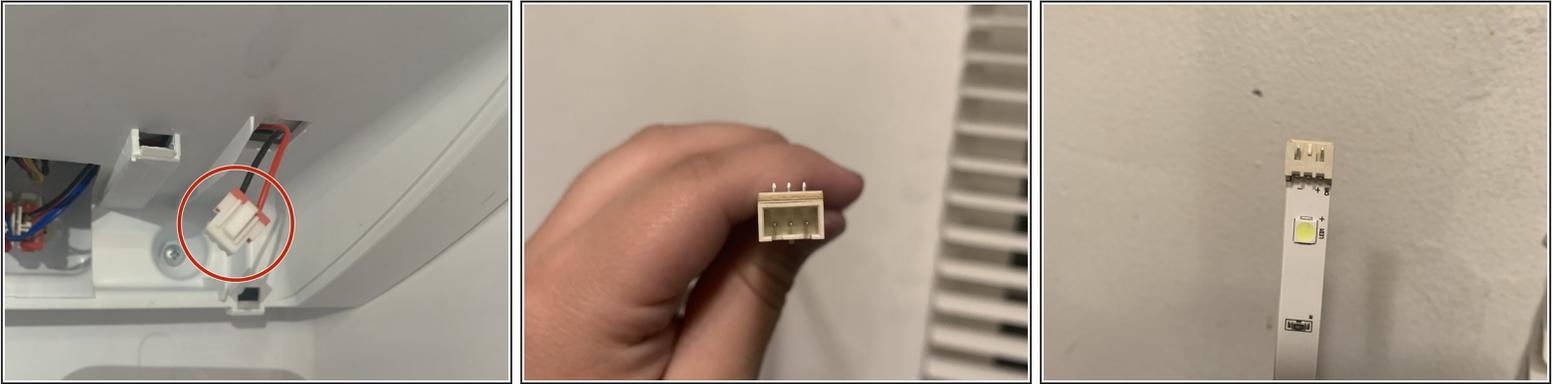

- Remove the cover that protects the LED light.

Step 2

- Disconnect the damaged light from the connection.

Step 3

- Remove the damaged LED light to insert the new one on the connection.
- Be careful not to damage the clip from the connection when removing the LED light.

Step 4

- To connect the new LED light, clip it onto the connector.
- ⓘ After connecting the new LED strip reconnect the refrigerator to see if the light is working.

To reassemble your device, follow these instructions in reverse order.
