# INTRODUCTION

This guide replaces the USB port for the Lenovo Legion Y530-15ICH, overtime with use it make break/get water damaged. This is especially important if the user needs to connect a smartphone.

## TOOLS:

[iFixit Opening Picks \(Set of 6\)](#) (1)  
[JIS #1](#) (1)

## PARTS:

[5C50R40194 - Lenovo I/O Board](#) (1)

## Step 1 — Back Cover

 **Ensure the device is powered off.**

- Use a PZ00 screwdriver bit to remove the eleven screws securing the back cover.
  - Five 7 mm screws
  - Six 4 mm screws

## Step 2

- Carefully pry the back cover off the computer using an opening pick.
  - ① Start at the corner of the laptop and work your way around the side. Gently pull up on the cover until it detaches.

## Step 3 — USB Port

- Remove the ribbon cable connecting the USB port to the motherboard, located adjacent to the fan unit.
- Using a JIS #1 screwdriver, remove the two screws securing the USB port to the module.

## Step 4

- Gently disconnect the single ribbon cable with your fingers.
- Remove the USB port from the device.

---

To reassemble your device, follow these instructions in reverse order.
