

Alcatel One Touch Fierce Battery Replacement

A very easy guide showing you how to replace...

Written By: Jonathan Ruiz

INTRODUCTION

A very easy guide showing you how to replace the battery on this phone.

TOOLS:

[iFixit Opening Tool](#) (1)

[Phillips #000 Screwdriver](#) (1)

[Tweezers](#) (1)

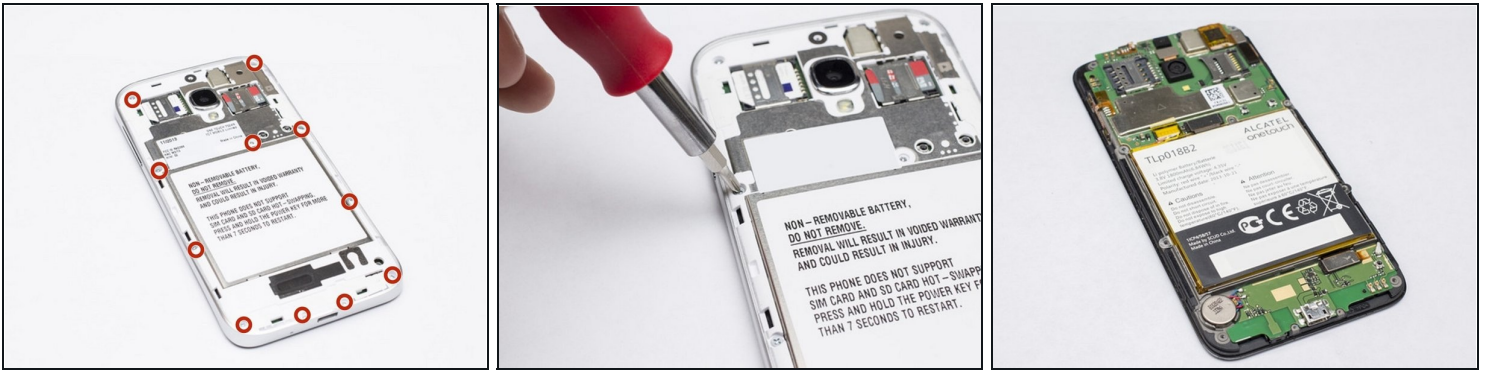

[Spudger](#) (1)

Step 1 — Rear Case

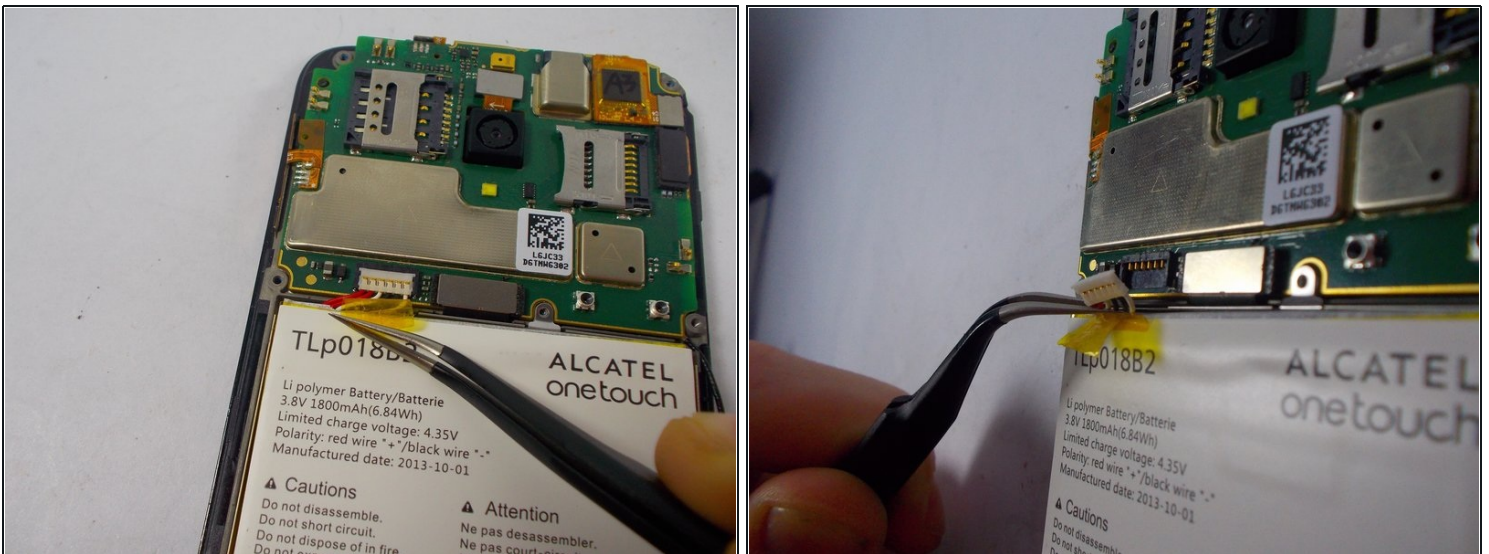

- Pry with a plastic opening tool, or your fingernail, in the divot at the bottom left corner of the phone.
- Lift the rear case by the corner nearest the divot and remove it from the phone.

Step 2 — Midframe

- Remove the 11 Phillips #000 screws.
- The midframe should lift free.

Step 3 — Battery

- Use the tip of a spudger to pull back the yellow tape covering the battery connector.
- Use a pair of [tweezers](#) to pull the battery connector from its port.

⚠ Be careful not to tear the battery from its connection.

To reassemble your device, follow these instructions in reverse order.
