

Nokia N-gage Nem-4 Housing Replacement

Removal of housing

Written By: ethancross2001

INTRODUCTION

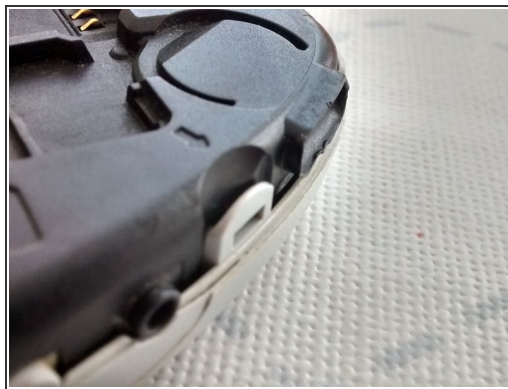

Removal of housing

Step 1 — Housing

- To take off the housing you need to turn the device upside down and push the release button down at the bottom of the phone and pull the cover down with your thumbs until you hear a click, and the cover should come free

Step 2 — Undoing clips and lifting off bezel

- To take off the front bezel you need to put your nails under the clips pictured and pry off the case

Step 3 — Lifting off bezel

- With the housing unclipped you should be able to lift it off.

Step 4 — Removing button pads

- Lift off the buttons to reveal a bare contact pad. Now you have removed the housing !

To reassemble your device, follow these instructions in reverse order.
