

# Canon PowerShot SD1100 IS Top Button Assembly Replacement

In this guide you will learn to remove the top...

Written By: Wyatt Chan

# INTRODUCTION

In this guide you will learn to remove the top button assembly, which can be replaced if damaged or filled with debris.

---

## TOOLS:

Spudger (1)

---

### Step 1 — Front and Rear Cover

- Remove wrist strap and battery.

## Step 2

- Remove 2 screws from each side of the camera (4 total, 0.102 in).

- Remove 2 screws from the bottom on the camera (0.138 in).

⚠ Do not mix the 4 side screws with the 2 bottoms ones; they are different sizes.

## Step 3

- Gently pull off the front cover.

ⓘ The plate on the side should come off.

- Gently pull off the back cover.

## Step 4

- The cases should now be removed.

## Step 5 — Top Button Assembly

- Use the spudger to disconnect the black tab.

## Step 6

- Gently pull off the shutter button assembly.

## Step 7

- Use the [tweezers](#) to disconnect the microphone cable.

## Step 8

- The shutter button assembly should now be removed.

---

To reassemble your device, follow these instructions in reverse order.
