

Garmin Nuvi 2595LMT GPS Mount Replacement

This guide will walk you through the step of replacing the mounting device for the Garmin Nuvi 2595LMT GPS.

Written By: Mary Rose Wirkkala

INTRODUCTION

Is your mounting device broken or not locking into place? It might be time to replace it with a new one.

PARTS:

- [Garmin Nuvi 2595LMT Suction Cup Mount & Bracket](#) (1)
-

Step 1 — GPS Mount

- Separate the GPS mounting cradle from the mounting device.

Step 2

- Gently remove the cradle from GPS device.
- ★ [Reassembly tip: Place the cradle so that the triangle on the back is facing upwards. Align the GPS and cradle so the inserts and tabs of the GPS are in line with one another.]

Step 3

- Pull the lever on the back of the GPS mount up and remove it from the surface.

To reassemble your device, follow these instructions in reverse order.
