

Garmin Nuvi 2595LMT Back Cover Replacement

Need to repair internal components for your Nuvi? Follow this guide to disassemble your device.

Written By: Taylor DeWitt

TOOLS:

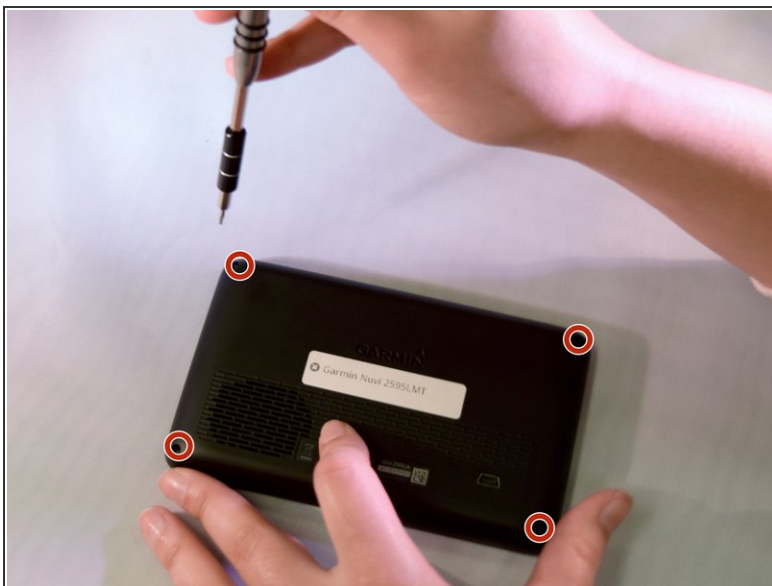

- [iFixit Pro Tech Toolkit](#) (1)
-

Step 1 — Garmin Nuvi 2595LMT Back Cover Replacement

- Place the device on the workspace so the screen is facing downward.

Step 2

- Using the t5 screwdriver from the iFixit Pro Tool Kit, remove all four 5.6mm screws placing them safely on the table.

Step 3

- Grab a spudger from tool kit.
- Pry open sides of Nuvi gently with spudger (do not rip apart).
- Use plastic opening tool to pry ribbon slowly from white plastic bar.
- Separate the two pieces and place them on the table

To reassemble your device, follow these instructions in reverse order.
