## **INTRODUCTION**

This guide will help the user locate and safely remove the battery.

#### Step 1 — Battery

- Make sure the computer is unplugged, and turned off completely
- Place the computer on a flat surface with the bottom facing you.

#### Step 2

- Place a finger on the small tab on the left with the lock and unlock symbols.
- Slide this tab to the unlock position.
- if done correctly, you should see an orange marker.

### Step 3

- Place a finger on the tab in the upper right corner.
- Slide this tab to the right and hold it in that position.

## Step 4

 Place your finger on the three lines in the middle of the battery while holding the tab on the right.

## Step 5

 Push forward on the battery lines while holding the tab on the right.

To reassemble your device, follow these instructions in reverse order.
