

# Canon PowerShot SD1000 Front Case Replacement

This is the removal of the Canon PowerShot SD1000 front panel.

Written By: Phillip Phung

---

 **TOOLS:**

- Phillips #00 Screwdriver (1)
-

## Step 1 — Back Panel

- Remove the two 2.9 mm screws from the side panel closest to the camera lens.

## Step 2

- Remove the two 2.9 mm screws from the camera bottom panel.

### Step 3

- Remove the two 2.9 mm screws from the side panel farthest from the lens.

### Step 4

- Pull the back panel away from the camera body, starting at the end with the function buttons.

## Step 5

- Remove the small cover panel and the attached wrist strap mount.

## Step 6 — Front Case

- Remove the front cover by gently pulling it away from the camera body.

## Step 7

- Place the front cover, back cover, and wrist strap mount in a safe place until you are ready for reassembly.

To reassemble your device, follow these instructions in reverse order.
