Asus A52F Wifi Card Replacement

This guide will teach you how to open the...

Written By: Roman Justice

INTRODUCTION

This guide will teach you how to open the laptop with a screwdriver, identify and safely remove the broken WiFi card, and replace it with a working one.

🔧 **TOOLS:**

Phillips #0 Screwdriver (1)
Spudger (1)
Anti-Static Wrist Strap (1)

Step 1 — Battery

- Place the laptop face down with the battery facing away from you.

- Locate the two buttons next to the battery.

- Slide the right slider to the unlocked (red) position.

Step 2

- Hold the left button to the left.

- Slide the battery with your other hand away from you and it should disconnect.
Step 3 — Lower Case

- Remove the five Phillips # 0 screws from the back panel.

- Using your finger or a plastic spudger start to carefully pry up the back planel.
Step 4

- Slide the back panel away and remove the panel.

Step 5 — Wifi Card

- First, find the Wi-Fi card

- Move the protective flap back and use a Phillips size 0 screw driver to remove the two screws.

Step 6

- First remove both of the wires from the WiFi card.

- Lift the WiFi card up and remove it.

To reassemble your device, follow these instructions in reverse order.
