

Sony Xperia SP Disassembly

Removing the backplate

Written By: Jomel

INTRODUCTION

Learn to disassemble the Sony Xperia SP in this guide

TOOLS:

- [Mako Driver Kit - 64 Precision Bits](#) (1)
 - [Spudger](#) (1)
-

Step 1 — Sony Xperia SP Disassembly

- Remove back case

Step 2

- Remove 8 Phillips screws (one in center) and 2 smaller Phillips screws

Step 3

- Remove torque screws on either side

Step 4

- Using a spudger remove the inner back casing by lifting the clips along the frame

⚠ A ribbon cable connects the back plate to the mainboard

To reassemble your device, follow these instructions in reverse order.
